Cronos Group Inc. Announces Exclusive Distribution Agreement with Delfarma in Poland

TORONTO, June 25, 2018 /CNW/ – Cronos Group Inc. (NASDAQ: CRON) (TSX: CRON) ("**Cronos Group**" or the "**Company**"), is pleased to announce that it has entered into a strategic distribution partnership with Delfarma Sp. Zo.o ("**Delfarma**"). Founded in 2004, Delfarma is a privately owned pharmaceutical wholesaler and was the first company in Poland to introduce international parallel import of medicinal products from European Economic Area countries. Delfarma distributes directly to over 5,000 pharmacies and more than 200 hospitals, a distribution network that reaches approximately 40% of the Polish domestic market.

Under the initial five-year exclusive distribution agreement, Cronos Group's global subsidiaries will supply Peace Naturals branded cannabis products to Delfarma for distribution within Poland. Leveraging Delfarma's extensive distribution network, this partnership provides Cronos with unrivaled access to the Poland market. The parties are simultaneously working to obtain the necessary regulatory approvals within Poland for the full line of medical cannabis products with the aim to offer patients in Poland a variety of premium treatment options.

"We are thrilled to partner with Delfarma, an innovative, established and reputable pharmaceutical leader," said Mike Gorenstein, CEO of Cronos Group. "Delfarma's expertise and widespread distribution channels are aligned with Cronos' strategic focus on building an international distribution platform by partnering with existing industry leaders."

The strategic partnership with Cronos confirms Delfarma's creative and resourceful approach to the ever changing pharmaceutical market in Poland. "We want to actively shape the market by offering new and differentiated products to patients," said Tomasz Dzitko, Founder and CEO of Delfarma. "We are excited that with Cronos, we will launch medical cannabis in Poland just months after its legalization and by doing so extend the optionality for treatment of various medical conditions to improve the lives of patients."

About Delfarma

Delfarma is a pharmaceutical wholesaler and manufacturer in Poland. As a pioneer and parallel distribution leader, Delfarma markets approximately 500 medicinal products, both prescription and OTC, supplied to pharmacies, pharmaceutical wholesalers and hospitals. Delfarma's storage and repacking facilities are fully owned and operated, guaranteeing complete control of processes, continuity of sales and creating flexibility for Delfarma's partners. Delfarma is constantly expanding its product portfolio and extending its customer base in line with its long standing objective to be "*Always one step ahead!*" Parallel distribution is the only form of competition for any specific medicine during the life of its patent. It stems from price differentials among national markets within the European Economic Area. All transactions are done through authorized pharmaceutical wholesalers. Since 2005, parallel distribution in Poland had generated over PLN 1 billion (CAD 400 million) of savings to the government, national health insurer and patients by making original, innovative medicines available at a lower cost.
